

Copy the data through intent from Activity1 to Activity4 using Bundle

In Activity3;

```
private EditText email=findViewById(R.id.PT4);  
String e1=email.getText().toString();  
Intent it3=new Intent(Act3, Act4.class);  
Bundle bd1=new Bundle();  
Bd1.putString("Email",e1);  
It3.putExtra(bd1);
```

In Activity4;

```
private TextView T2=findViewById(R.id.TV2);  
Bundle bd2=getIntent().getExtras();  
String n2=bd2.getString("Email");  
T2.setText("Email id is " +n2);
```
